The EURA software is downloadable at <http://www.ik6cac.com>; information on the Award is available at <http://www.aribusto.it> or from the Award Manager (Pier Luigi Anzini, IK2UVR: e-mail ik2uvr@malpensa.it).

Several stations are expected to operate from fortresses and castles in France, Belgium, Italy, Spain and Portugal. NEWS FROM ALBANIA ---> Many noticed ZA/OH2BH and ZA/OH2PM signals bouncing in from Albania last week (four pictures can be found at <http://www.n4gn.com/za/>). Indeed, some 6000 QSOs were made - not only to please the Deserving but also to remind us about our shared responsibility to help those in need.

This time, five stations were fully equipped: ZA1BH, ZA1BS, ZA1DC, ZA1DJ and ZA1S. These callsigns were launched into the battle and these fine people made their first radio contact to the world.

Radio equipment was donated by W3UR, K9MM, G3TXF, EA2NO and OH2PM, but many more recently licensed ZA hams are still in need of any gear to bring more ZA signals to the bands and make the Albanians welcome to this great passion of ours.

You are welcome to join this undertaking by making your old gear active from Albania. Your contacts are K7JA <c.margelli@vxstdusa.com>, N7NG <n7ng@arrl.org> and K9LA <k9la@arrl.net>. Or just meet personally ZA1B, OH2BH, OH2PM, G3LQP and the above U.S persons in Dayton to present your desire for support. [TNX N4GN]

QSL T33CF ---> Claudia, K2LEO initially joined the T33C team as an accompanying YL, then she obtained her T33CF callsign and, once on Banaba, she was invited to operate SSB for a few hours (on different dates) to satisfy the many requests for a YL operator QSO.
